| South Carolina  | I would say no that it must be an IHE as the fiscal agent. I received one from a school district and informed them that the higher ed partner should be the fiscal agent as it is the higher ed portion of the program. |
| USDOE   | My answer is "absolutely yes."  |
| Alabama   | If it is okay with all parties involved I can see no reason why not as long as the indirect cost issues are resolved.   |
