

Jiah Kim

IT Systems and Database Manager

Jiah Kim joined SHEEO in July 2015. She serves as the IT systems and database manager. In this role, Ms. Kim is responsible for managing SHEEO's IT infrastructure and online resources and provides IT support and network/system administration for the organization. She started her IT career as a web/database developer two decades ago and worked as a computer information system director for other nonprofit organizations before joining SHEEO. Ms. Kim has a bachelor's degree in philosophy from Chung-Ang University and a master's degree in information science from Indiana University. She specialized in web development and user-centered interface design from Indiana University Bloomington. Outside of her work, Ms. Kim enjoys painting, playing cello, and hiking.
