

SHEEO

State Higher Education
Executive Officers Association

MEMBERSHIP BENEFITS

WHO WE SERVE

The State Higher Education Executive Officers Association (SHEEO) serves the chief executives of statewide governing, policy, and coordinating boards and their staffs responsible for overseeing higher education in their state.

WHAT WE OFFER

ADVOCACY AT THE FEDERAL LEVEL

SHEEO serves its members as an advocate for state policy leadership and as a liaison between states and the federal government. SHEEO also advocates the value of higher education and the critical role of state-level higher education leaders.

COLLABORATION & OPPORTUNITIES

SHEEO supports members as a vehicle for collaborating with peers through the convening of constituent groups and multistate team events to share best practices and essential information, and to discuss and critique solutions.

STATE-SPECIFIC RESEARCH & DATA

SHEEO approaches many research and data projects through a state-specific lens. We serve as a source of information and analysis on educational and public policy issues, using data to drive improved outcomes.

EXCLUSIVE RESOURCES & PROGRAMMING

Member-only events, like Communities of Practice convenings, along with emails and webinars on rising issues in higher education are offered exclusively to SHEEO members. We also conduct surveys and queries of our members with findings only available to members and their staffs.

62 MEMBER AGENCIES

Our members represent all 50 states, the District of Columbia, Puerto Rico, and the Northern Mariana Islands. SHEEO is made up of 37 coordinating/policy boards and 25 governing boards.

15+ CURRENT PROJECTS

Work is underway in several project areas, including Student Basic Needs Data, Examining Funding Models, Holistic Advising for Student Success, Workforce Pell Learning Community, Postsecondary Success for Justice-Impacted Students, State Higher Education Funding, Rural Talent Development, among others.

\$30.46M IN GRANT FUNDS SINCE 2015

Using grant funds, SHEEO has been able to support states through focused research on important issues in higher education, including state higher education funding, tuition and fees, student success, and state postsecondary data systems.
